Practical No.1

Aim: Develop a simple “Hello World” Android application demonstrating project creation, Android Studio interface, Android components, AVD creation, and application execution.

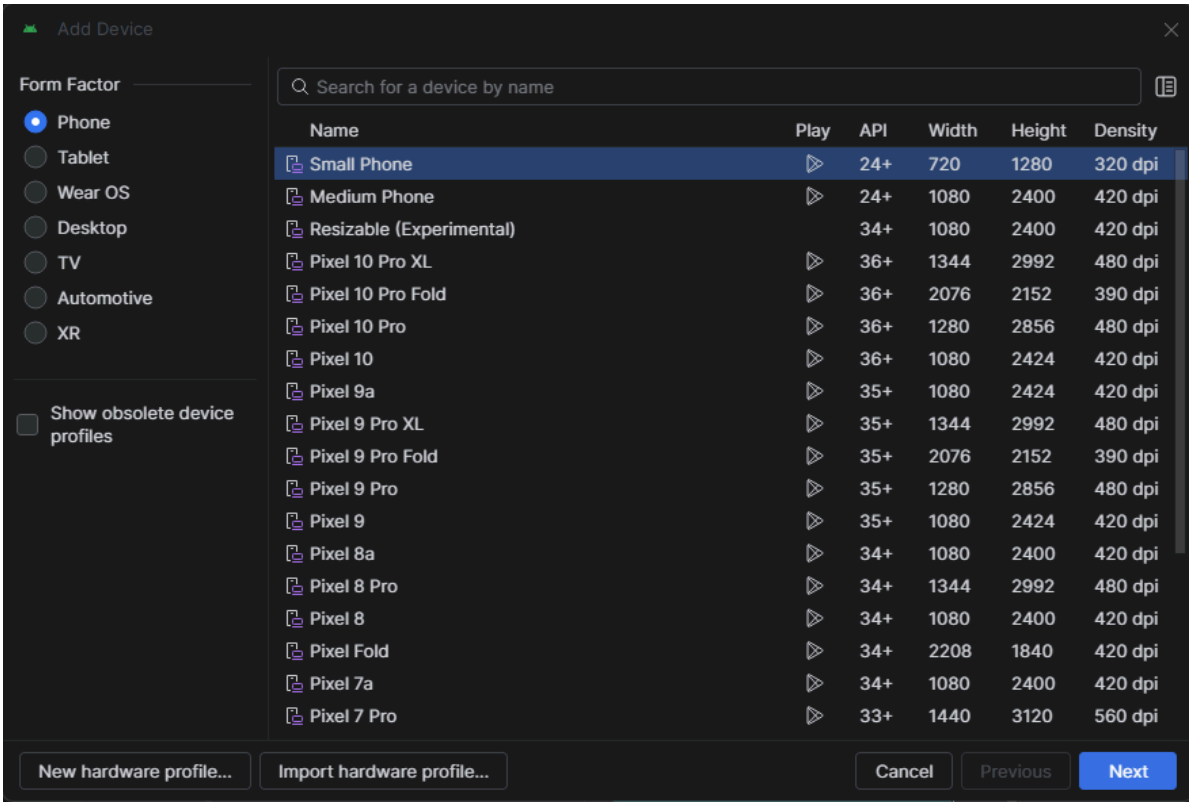

Steps to create Virtual Android Device(AVD)

To open the DeviceManager,Perform following steps:

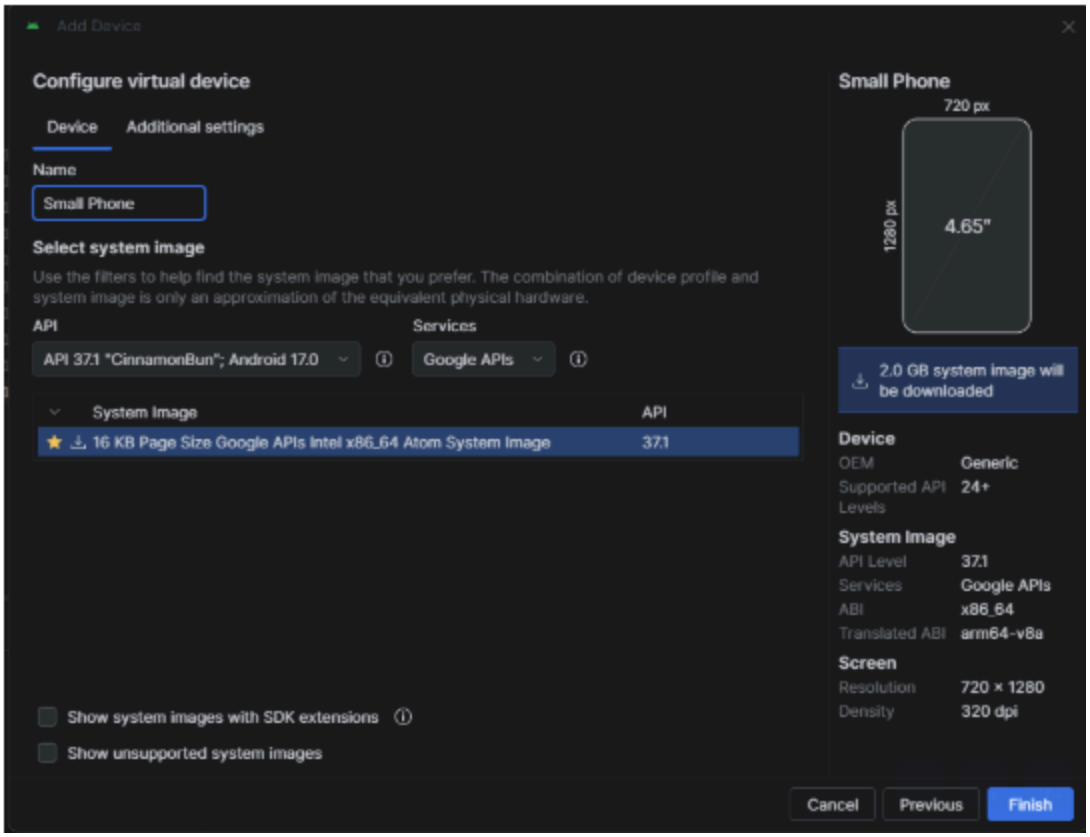

Open the Device Manager by clicking Tools > Device Manager.

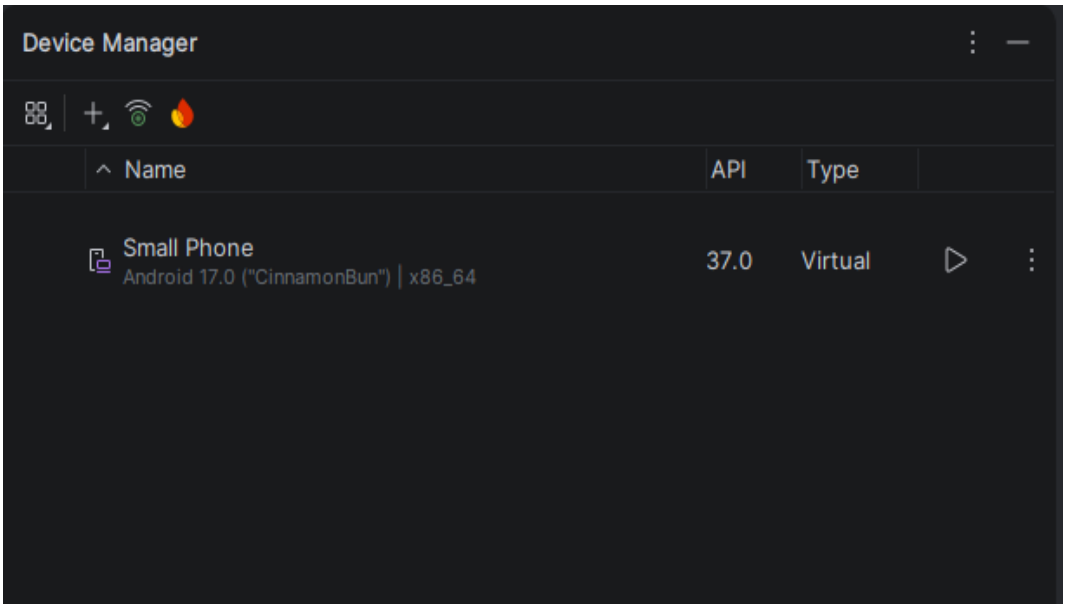

Click on + icon (Create Virtual Device)

Select Form Factor-Phone and select Small Phone as shown in above screen shot and click on Next.

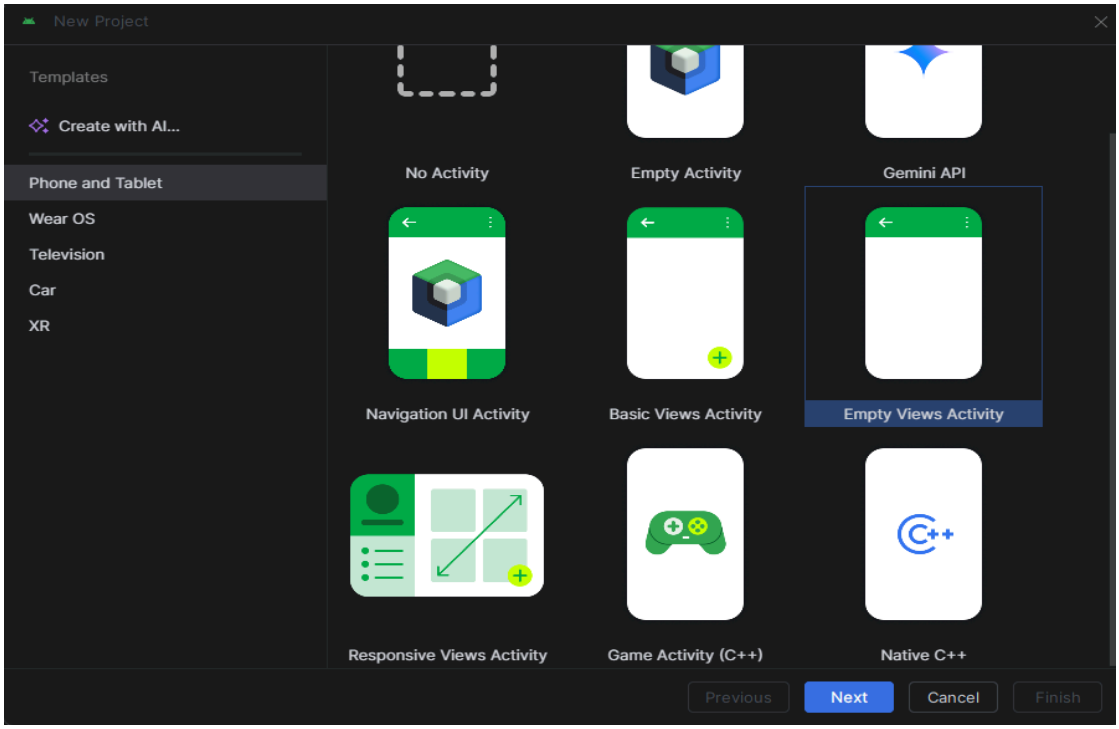

Now Click on Finish

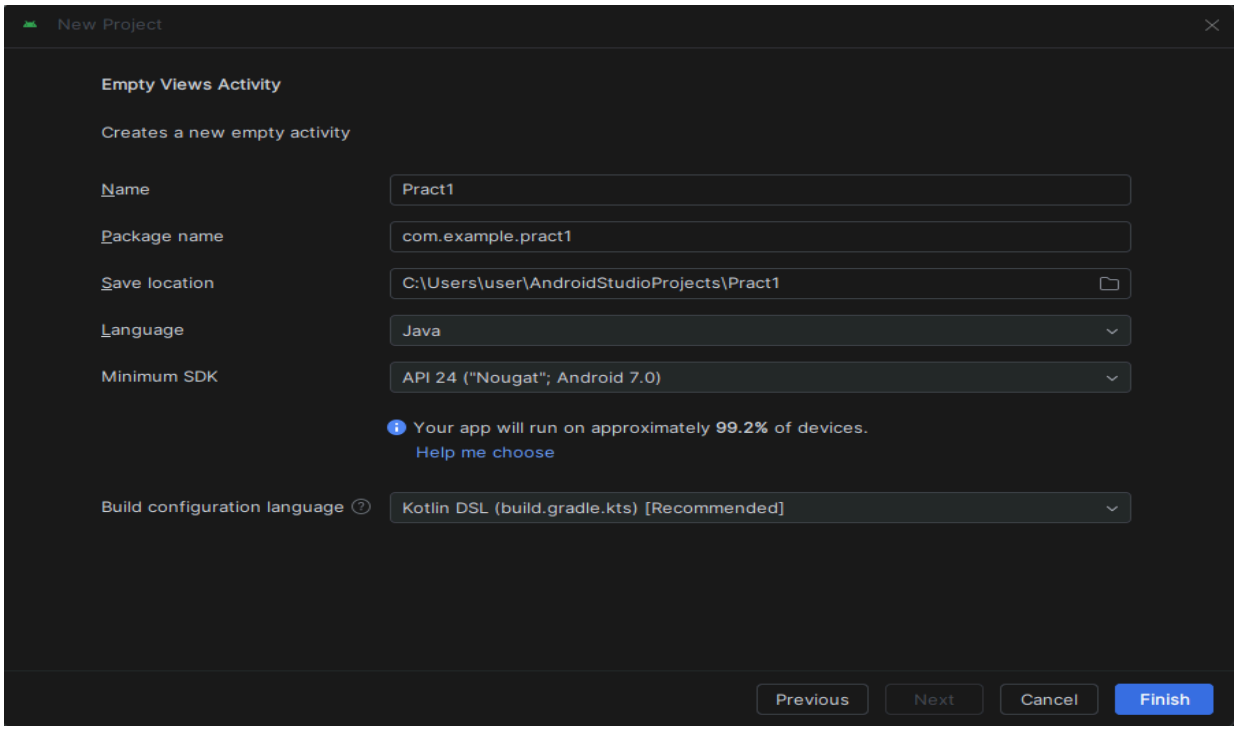

AVD is created now.

Creating simple Hello world Android application
